ANIKET DAS

aniketdas20190@gmail.com | PH NO : (+91)-9051879720 | Github | LinkedIn

PROFESSIONAL SUMMARY

I am a B.Tech student specializing in Artificial Intelligence and Machine Learning with hands-on experience building ML models for real-world applications including computer vision, NLP, and generative AI.

EDUCATION

B.Tech in Computer Science (AI & ML) | *Brainware University, Kolkata* | 2022 – 2026

- CGPA: 9.14/ 10.0

Higher Secondary(12th class) | *Baranagar Narendranath Vidyamandir School , Kolkata* | 2019-2021

- 87%

Madhyamik (10th class) | *Baranagar Ramakrishna Mission Ashrama High School , Kolkata* | 2018-2019

- 87%

TECHNICAL SKILLS

Programming Languages: Python, Java, C

Artificial Intelligence & Machine Learning & web technology: Machine Learning (ML), Deep Learning, Artificial Intelligence (AI), Generative AI (Gen-AI), NLP, CNN , MONGODB , React.js, Node.js

Databases & Cloud: MongoDB, SQL, DBMS

PROJECTS

Agricultural Development in Rural Areas | *ML & Web Project* | **APR 2025 – OCT 2025** **[LINK]**

- Developed and trained machine learning models for fertilizer recommendation, plant disease detection, and crop yield prediction to support rural farmers.
- Implemented image classification pipelines for plant disease identification using supervised learning techniques.
- Integrated ML models into a web interface built with HTML, CSS, and JavaScript for ease of farmer access.

Technologies Used: Python, Machine Learning, HTML, CSS, JavaScript

PDF Analysis RAG | *GEN-AI* | **AUG 2026 – SEP 2026** **[LINK]**

· Developed a RAG-based application to analyze PDFs and answer questions using document content.

· Implemented text chunking, embeddings, vector search, and LLM-based(**llama3.2:1b**)responses.

Technologies Used: Python, LangChain, Ollama, ChromaDB, Streamlit, PyPDF

AI News Agent – Top 10 News Automation | *GEN-AI* | **AUG 2026 – SEP 2026** **[LINK]**

· Developed an automated system to fetch, clean, deduplicate, and rank news from multiple RSS sources.

· Generated AI-based summaries and automatically sent the Top 10 news articles to a Gmail account.

Technologies Used: Python, RSS, BeautifulSoup, Ollama, Llama(llama3.2:1b), Gmail SMTP, JSON

CERTIFICATIONS

Oracle Cloud Infrastructure 2025 Certified Generative AI Professional OCT 2025 - OCT 2027 [LINK]

- Covered Generative AI, Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), NLP, Docker, and OCI tools.
- **Deloitte Data Analytics Job Simulation** [LINK]
- **MERN stack Development from ARDENT COMPUTECH PVT.LTD**
- **GEN AI & AGENTIC AI CERTIFICATION COURSE FROM EVARCITY – GEN AI | AGENTIC AI**
